

## Web 2.0 – The Web’s Edge

### Assignment #7– Class #8 / Microblogs

Sample Microblog: <http://www.twittercom/csit70>

#### Purpose:

1. To learn how to use a microblog and send a message to another user
2. To learn how to use widgets / gadgets

#### Procedure

1. Set up an account on **Twitter.com** (or another microblog service if you wish)  
**If you already have a microblog, you may use that one.**
2. Make a few posts in the microblog
3. Use a widget / gadget to display your Twitter posts in another blog or website (**optional**)
4. **Send me a message (@csit70) using your Twitter account or another account, and include your name.**

If not possible with another account, just email me the URL of your microblog.

5. Post the URL of your Twitter account on the wiki (**optional**)

When you begin a message with “@UserName” - the box changes to a “reply” message

What are you doing? **Enter message** 140
