<http://csit70.pbworks.com>

Request Access:

In the upper right hand corner of the Wiki front page, you will see the text "Create an account or Log in". First you must request access. You will see a button on the right that says "Request access."

The wiki administrator (myself) will receive the request and approve it. (This may take a day or so depending on when the email is initiated.) After your request is approved, you will be sent an email notification.

Set up your account:

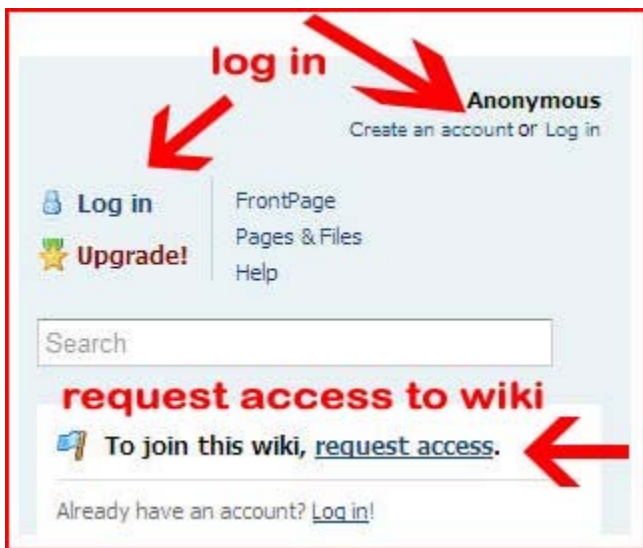

Click on the link in the email that says: "Please click here to join csit70". You will be taken to a page to set up your log in account. **Write down the email address and password that you chose!** Please sign up with your REAL NAME, so I know who you are.

Wiki Access:

You will have write access to collaborate on certain pages. You will have your own folder in which you may create pages, upload images, and do whatever you want.
